**MenuMaster® Commercial Microwave Oven
New DEC18MC replacing Model CHDC5182**

In the past five years, we have experienced a different market needs in China and we have improved the features to suit your market. Starting from January 1, 2017, our new 1800W compact will be available.

This 3rd Generation Improvement include high efficiency Magnetron firing 2000W microwave. The distribution of microwave has also been changed to more centralized mode for a higher speed and smaller items usually requested in China.

We have also introduced a new option of USB port for easy programing, **DEC18MCX** cater to chain accounts. For more information, ask our Distribution Partners you are working with.

DEC18MC - USA Design and Made for China

We, ACP are market oriented, improve for the benefit of our customers and distributors. We have a better oven, more reliable in the heavy use market.

The CHDC5182 will be discontinued, we will keep technical support and spare parts to service the existing ovens in the market.

Sincerely,

Alexis C. Kau
